

 **TRADEPORT** Hong Kong
Integrated Logistics Services

*The only on-airport logistics service centre in
Hong Kong serving customers around the world*

PREMIER LOGISTICS SERVICE CENTRE

Tradeport is the only on-airport logistics service centre in Hong Kong. Since its establishment in 2001, it has been contributing to Hong Kong's position as a leading logistics hub of Asia and the world.

Tradeport's unique location, state-of-the-art facilities, top-tier services, well-trained workforce and certifications for TAPA (Class A), AEO and C-TPAT differentiate us as your preferred logistics partner.

Not only do we work directly with our manufacturers and distributors, we also partner with third party logistics players to provide the best end-to-end solutions. We strive for continual improvements in our facilities, our technologies and our processes to help you achieve greater business success while making our footprint more environmentally friendly.

SELF OWNED FACILITIES

Tradeport has one of the largest warehousing facilities in the region. The self-owned building allows 24/7 access 365 days a year and offers one of the quickest turnaround time for our inbound and outbound services.

Number of Loading Bays
22

Clearance Height
G/F 9.5 m.
1/F and 2/F 7.5 m.

Number of Cargo Lifts
4

WHY TRADEPORT?

The Flexible Building

Tradeport's well-planned floor layout, shelving, racking and material handling systems and equipment make your inventory management simple and straightforward. We also provide office space to cater to your on-site support requirements.

Sense of Urgency to Fulfil Your Needs

Tradeport keeps customers ahead of competition. Our staff are trained to consistently contribute to shortening our response time at every step of the process.

High Security

The Tradeport premises are self-owned, which means we have complete control of the access and security. We have obtained a certification of TAPA (Class A) for Tradeport's physical settings and procedures to ensure the highest level of security. Our high-value cage also provides heightened security for the storage of high-value items.

Instant Worldwide Connections

Tradeport is just minutes away from the airport and within an hour from the container terminal and the China border. Shenzhen Bay Bridge and the future Hong Kong-Zhuhai-Macau Bridge will further strengthen our connectivity with China.

End-To-End Expertise

Tradeport offers the processes, skills and technologies vital to working seamlessly with our customers. Customers can out-source this critical process to us while concentrating on their core businesses.

Skilled Workforce

Our stable workforce comprises 100% of Tradeport's full-time permanent employees. They operate and maintain our advanced equipment, manage the efficient processes and ensure top service quality.

INTEGRATED LOGISTICS SERVICES

Tradeport's fully configurable facilities, well-connected location, professional workforce and close collaboration with third party logistics partners enable us to provide an end-to-end integrated logistics solution.

Inbound Logistics

Tradeport helps you effectively manage your inbound logistics to reduce inventory levels, shorten time to market and cut down on wastage. This also facilitates your swift responses to fluctuating market conditions. We manage your inbound SKUs systematically based on real-time inventory data and automated documentation.

Value-Added Services

Tradeport's postponement service helps you handle urgent orders in a timely, accurate and cost-effective manner. Our skilled staff are also well-trained for processes including product sorting, quality inspection, complex kitting, vacuum sealing, product modification, re-packaging, customised packaging and electrostatic discharge.

Outbound Logistics

Good order fulfilment requires an excellent process and advanced technologies. Tradeport has deployed Electronic Data Interchange (EDI) and a Warehouse Management System (WMS) to connect with our partners and customers to increase operational efficiency.

Reverse Logistics

Effective product return management allows a company to recapture value, minimise write-offs and increase consumer satisfaction. Tradeport's product return support includes product testing and setting up repair centre on the premises. We help you maximise your asset recovery and minimise recycling costs.

INDUSTRY SOLUTIONS

Tradeport is highly flexible in offering customised solutions to suit specific needs of a wide range of industries.

Aviation

With its status as an aviation hub, Hong Kong is the best location for aviation maintenance operators and spare parts suppliers to set up their regional distribution centre. Tradeport provides highly customisable warehousing spaces for spare parts and engine units of various shapes, sizes, weights, expiry dates, levels of fragility and values.

Electronic Components

Consumer electronics companies need to manage their supply chain intelligently to respond rapidly to changing market demand. With a location well connected to the southern China factories, Tradeport is the ideal raw material hub to help distribute your electronic components via Hong Kong to the global market.

Luxury Goods

Tradeport helps customers consolidate inventory in one single location – one that connects to all major Asian cities within four hours. Our warehousing facilities are temperature-controlled and equipped with a high-value cage for valuable products. Our customised packaging and final-stage assembly services increase your responsiveness to last-minute orders.

ACCREDITATIONS

Tradeport Hong Kong has been recognised in numerous certifications and awards through the years for our best-of-class systems and facilities, well managed processes and dedicated workforce. To name a few:

TAPA (Transported Asset Protection Association – Class A)

C-TPAT (Customs-Trade Partnership Against Terrorism)

AEO (Authorised Economic Operator)

ISO9001 (Quality Management System)

ISO14001 (Environmental Management System)

ISO50001 (Energy Management System)

OHSAS18001 (Occupational Health & Safety Management System)

OUR INVESTORS

Tradeport is backed by a consortium of industry leaders from Europe, China, and Hong Kong who share their expertise in cargo management, logistics service, and best practices and network of their respective industries.
